⑧ From Application MGR. Call Play, Pause, Stop Stream.
⑨ while playing adjust quality automatically → using scheduler / Async for every 2sec.

```
Play() {
  autoAdjust(BW 10MB)
}

autoAdjust(BW) {
  adjustQuality(BW IMP)
}

adjustQuality(BW IMP) {
  getQuality.
  aPPly()
}

ScheduledExecutorService = new SingleThreadExecutor.
Scheduler.scheduleAtFixedRate() -> {
  adjustQuality(RandomNumber);
}, 0, 2, TimeUnit.SECONDS)
```
